AUDIOVECTOR SR SUB

A MUSICAL EXPERIENCE WITH SPEED AND ATTACK

The SR Subwoofer gives your audio system immediate improvement. It helps open the midrange, almost as if the system is having to do less work.

Long stroke driver, rounded high quality cabinet, 400-watt amplifier & down firing passive radiator. What else do you need?

Our subwoofer delivers a fast, heavy duty & musical performance without stealing the attention from the loudspeakers. We recommend a subwoofer for both music and movies.
